Confirmation

On a 2 day workshop our vocational guidance counselor got a introduction in the methodology of "Berufsnavigation" from Thomas Diener. They experienced this modern and creative approach as very useful for the development of vocational guidance in Czech Republic. Especially with regard to the changes in the labor marked in direction of more flexibility and greater variety.

To establish "Berufsnavigation" could be a contribution to the further development of the civil society in Czech Republic.

A handwritten signature in blue ink, appearing to read 'P. Navratilova', is written over a light blue grid background.
